### Section 4 - Notice of Local Road Closure

The Edgebrook Road over the NJTP Bridge located in the Township of Robbinsville, Mercer County, will be closed for 8 to 10 months starting February 22, 2010 with a detour using primarily Route 526 (Robbinsville-Allentown Road). The first phase of construction will be to build a new bridge just south of the existing bridge. Once this is complete, new approach roadways will need to be built. Once the roadwork is complete, the last stage will be to demolish the existing bridge. Construction has commenced and will continue for the next 8 to 10 months.
